

**MADE TO CREATE.
READY TO PERFORM.**

Nestled in the heart of East Java, Mount Bromo stands as one of Indonesia's most iconic active volcanoes - revered for its striking beauty and spiritual significance. Its name, Bromo, is derived from the Javanese pronunciation of Brahma, the Hindu god of creation. This powerful and enduring symbol of nature's majesty serves as the inspiration and namesake for Bromo Guitars.

East Java is home to a vibrant music culture, brought to life each year at the acclaimed Jazz Gunung Bromo festival. Set in a natural open-air amphitheater beneath the majestic peak, the festival unites local and international jazz artists in a celebration of sound, tradition and innovation. This passion for music runs deep in the region, inspiring not only live performances but also the art of fine instrument craftsmanship.

Inspired by the breathtaking presence of Mount Bromo and created to pay homage to it, Bromo Guitars were born within East Java. This region is renowned for its exceptional tonewoods, fertile soil and temperate climate, which, along with a rich tradition of luthiery, provides the perfect foundation for instrument making. Each guitar is meticulously handcrafted in a state-of-the-art facility, blending three generations of craftsmanship with cutting-edge technology.

bromoguitars.com.au

The result is a range of guitars that deliver unmatched clarity, depth and specification that reflect exceptional value within their price range. Every Bromo Guitar features the silhouette of Mount Bromo meticulously inlaid into its headstock, paying homage to the mountain and its cultural significance. Furthermore, each guitar series is inspired by legendary mountain ranges from around the world.

Designed for beginners through to seasoned musicians who demand exceptional sound, playability and value, Bromo Guitars are built to inspire - whether on stage, in the studio or at home.

Experience the harmony of tradition and innovation - where every note reflects timeless craftsmanship.

APPALACHIA SERIES

Value-packed Acoustic Guitars with Premium Tone

Inspired by the rich musical traditions of the Appalachian Mountains, the Appalachia Series is thoughtfully crafted for discerning players who seek exceptional tone, reliability and craftsmanship – without the premium price tag.

Each model is built with carefully selected tonewoods and expert construction, producing a rich, resonant sound that rivals instruments well beyond its price range. Designed to feel familiar in your hands and inspiring to your ears, these guitars combine classic styling, durable build quality and musical versatility in one accessible package.

The Appalachia Series is more than just a well-priced guitar – it's a serious instrument for serious players who value tone, feel and lasting quality. With a perfect balance of affordability, playability and sound, it's a trusted companion for those looking to play, learn and grow.

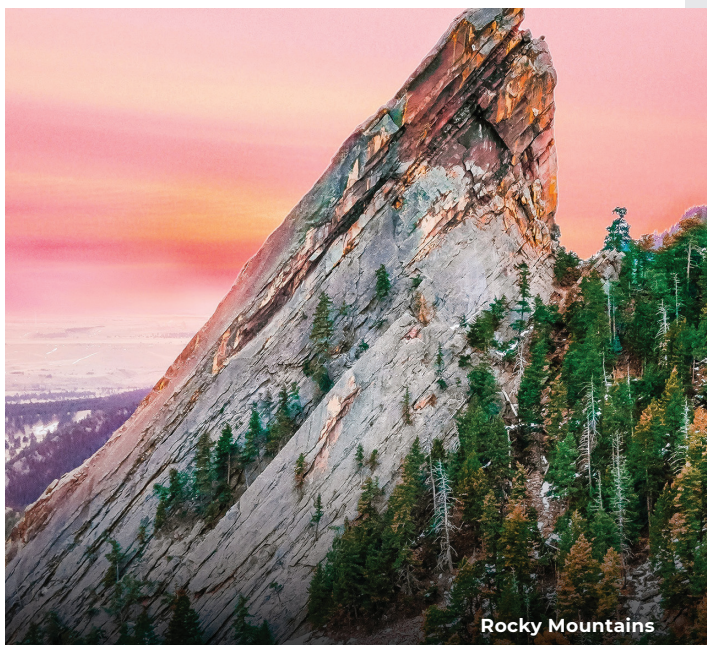

TAHOMA SERIES

Premium Solid Top Guitars

Inspired by the iconic Tahoma volcano in the Pacific Ring of Fire, Tahoma Series guitars offer exceptional value, expertly crafted for players seeking premium tone, high performance and reliable build quality - all at an accessible price point. Each model features a solid top, ensuring rich resonance, superior projection and outstanding tonal clarity.

Choose from solid spruce for bright, articulate tones with extended sustain or solid mahogany tops for a warm, mellow sound with smooth midrange response. The Tahoma Series is equipped with the innovative ToneFlow bracing system, which optimises vibration across the body for a broader tonal palette and improved sustain compared to traditional bracing designs.

For live and studio applications, Tahoma electric-acoustic models include an under-saddle pickup and a Bromo four-band EQ with built-in tuner.

ROCKY MOUNTAIN SERIES

Exceptional All Solid Wood Acoustic Guitars

Named after the awe-inspiring Rocky Mountains, the Rocky Mountain Series reflects the natural beauty of their namesake. This top-end range delivers exceptional sound quality, playability and craftsmanship. Each model in the range features an all-solid wood body, delivering full-bodied tone, enhanced projection and dynamic response.

The Rocky Mountain Series (excluding BAR1H) is equipped with the innovative ToneFlow bracing system, which optimizes vibration across the body for a broader tonal palette and improved sustain compared to traditional bracing designs. For live and studio applications, Rocky Mountain Series electric-acoustic guitar models feature Fishman Sonitone under-saddle pickup systems.

Every guitar in the Rocky Mountain Series undergoes a precise factory setup and is built with meticulous attention to detail, ensuring superior playability and comfort right off the shelf.
