Laney™

PRISM-MINI

Introducing the **Laney PRISM-MINI** - where every shade of your tone comes to life and one idea becomes many. This compact powerhouse delivers a full spectrum of sound with 100 presets, Bluetooth® control, and rich stereo depth. From desk to backstage, the PRISM-MINI turns inspiration into endless possibility.

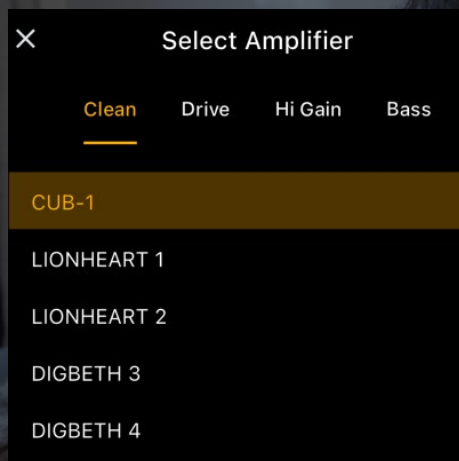

Big sound doesn't have to mean big size. The Laney PRISM-MINI packs a full-featured digital effects engine, Bluetooth® connectivity, and rich stereo sound into a portable desktop amp you can take anywhere.

- **100 Presets**
- **17 Amps and 32 Effects**
- **Bluetooth 5.3 Connectivity**
- **Free Tone Wizard App – Control Effects, Amps and Stream Music from your phone**
- **Built in Tuner**
- **APP based Drum Machine**
- **6 watts RMS - 2 x 3 watts stereo**
- **Up to 14 Hours Playtime**
- **Full Colour LCD Screen**
- **Headphone socket**

100 PRESETS

The PRISM-MINI is loaded with 100 presets, split between 50 factory presets & 50 user presets.

Each of the high-end factory presets has been meticulously crafted and represents the best guitar tones inspired by Laney players such as Tony Iommi, Billy Corgan, Devin Townsend, Lari Basillio, Tom Quayle, and Jack Gardiner to name a few. There are 50 user presets for you to write and store your own signature sounds. Writing presets, storing, and exporting your presets is made easy by the accompanying FREE TONE-WIZARD APP.

17 AMPS & 32 EFFECTS

The PRISM-MINI comes packed with a wide range of amp options and studio-quality effects to cover any playing style. Choose from 17-amp models; from crystal-clean tones to full high-gain power, plus 32 effects ranging from drive, EQ, modulation, delay, and reverb. Use them individually or combine them to craft everything from subtle reverb to fully layered, performance ready sounds.

6 EFFECTS AT ONCE

The PRISM-MINI has up-to 6 DSP Effects to accompany your Amp and Cabinet. Changes to the signal chain are made easy via TONE-WIZARD companion app. Drag and drop your effects to any position you want.

Drive pedal before your amp? No problem! Put your reverb before your pitch shifter? ... Sure, if you want. You do you.

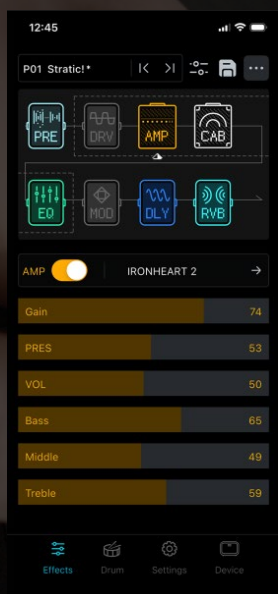

SEAMLESS CONNECTIVITY

The PRISM-MINI is not only an amazing, portable, stereo multi-FX guitar amp, it is also a fully functioning Bluetooth® speaker! Capable of streaming music from your phone to accompany you whilst you are playing or simply listening to your favourite tunes on the go. You also connect to the APP based DRUM machine via Bluetooth®.

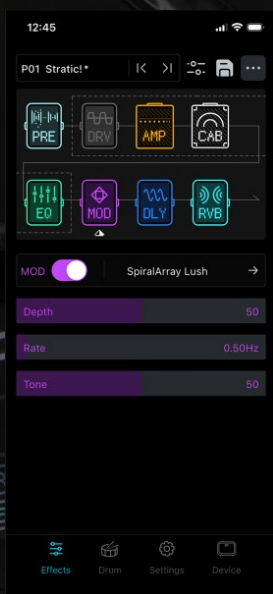

FREE – TONE-WIZARD APP

The PRISM-MINI includes the free TONE-WIZARD companion app for iOS and Android. Control your amp wirelessly via Bluetooth; adjust settings, tweak tones, stream music and manage presets straight from your device. Create, store, share and import patches quickly and easily, all from one simple interface. The app also unlocks exclusive features, including the built-in drum machine, giving you even more creative control over your PRISM-MINI.

PRACTICE IN TIME

Having your own drummer to join you when you are practising has real benefits, such as improved timing, better rhythm, and more creativity.

In association with the TONE-WIZARD APP you can have all the above as the APP features its own drum machine!

Delivering multiple style options with plenty of patterns to play against, the TONE-WIZARD APP lets you practice whenever, wherever you want and at whatever volume.

PRACTICE IN TUNE

Whatever your musical vibe is it's always important for your instrument to be in tune.

The PRISM-MINI comes loaded with a high-quality on-board tuner visible on screen for ultimate convenience.

BIG SOUND

Loaded with a pair of custom designed 1.5" woofers, the PRISM-MINI produces 6 Watts of wide stereo soundscape giving you a large, space filling, sound.

UP TO 14 HOURS PLAY TIME

The PRISM-MINI is fitted with a built-in lithium battery designed to give you up to 14 hours of continuous play time which is long enough for any practise session or journey. The unit is easy to recharge via the USB type C socket.

The Ledge

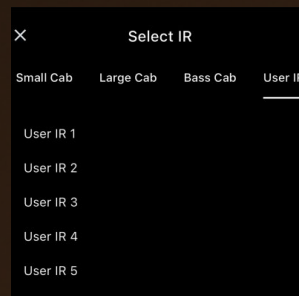

FULL COLOUR SCREEN

The PRISM-MINI features 1.77" Full Colour LCD screen allowing access to all editing and settings from the device. The colour screen means you can use the PRISM-MINI standalone without the need to fire up the APP.

PERFECT RESPONSE

The PRISM-MINI comes loaded with over 20 different cabinet options, from 4x12 to 1x12's and bass cabinets as well, so you should be able to find your perfect cabinet selection. Using the TONE-WIZARD APP you can also import and host your favourite IR's.

The PRISM-MINIs are available in 2 colour options so you can choose the one you like best.
